Total ATC Allocated without Auction		-	-	43.3	81.9	111.5	111.1	49.9	37.7	35.8	35.8	35.8	-	

***Remark:** Announcement of Auction in June and July is decided, because after allocation of capacities within previous priority group, the remaining amount of the export allowed volume defined by electricity (capacity) forecasted balance" (capacity needed for synchronous operations is also deducted) is less than the total capacity requested in the relevant priority group. Thus, Auction is held for allocation of the remaining export allowed volume.

****Remark:** Full requested amount for all requested months is allocated to Georgian-Urban energy, as according to Paragraph IX of article 6 of amendment dated 10.04.2009 of the Memorandum of Understanding signed between the Government of Georgia and Georgian Urban Energy Ltd on construction of Faravani HPP, dated 29.05.2007, the company is "entitled to freely sell and/or export all the electrical energy generated or acquired by the Company on its own trading terms to third parties and countries including the Republic of Turkey upon its sole discretion and without any limitation"

******* Capacity Allocated to Bakhvi Hydro power ltd. Was changed upon companies request and Article 14¹², paragraph 1² of Market Rules
